

On The Fireline Living And Dying With Wildland Firefighters Fieldwork Encounters And Discoveries

By Matthew Desmond

"Pressestimmen '[The book is] a highly readable, at times funny, very insightful, Bourdieu-inspired ethnography of country masculinity, and as such very useful for courses on masculinity. It is a fine example of how to apply structuration theory and, therefore, a good resource for classes in social theory. It also offers a penetrating examination of the logic of bureaucratic organization and the way it creates a common sense world in which blame is always individualized. . . . A thick and rich take on a particular version of rural, masculine, working-class culture in the United States and how it fits with an institutional setting that requires young men to do dangerous work.'--Thomas Dunk 'Canadian Journal of Sociology 'This is an important book because it illustrates a set of practices that are sufficient to maintain social order in a dangerous world. . . . Desmond deploys this complex argument with persuasive grounding and enviable control. We are in a stronger position to think about risk because of his efforts.'--Karl E. Wieck 'Administrative Science Quarterly 'The book is beautifully written and theoretically sophisticated with truly surprising findings. . . . On the Fireline illustrates the unique questions, methods, and findings made possible by the sociological imagination and is, thus, an excellent text with which to solidify a semester's worth of sociological training. Further, because Desmond interweaves compelling narratives, complex theory, and a discussion of methodological rigor, it solidifies students' understanding of exactly how useful, and fascinating, the sociological lens can be.'--Lisa Wade 'Teaching Sociology 'Rich in gritty detail, Matthew Desmond's sociological study of a firecrew is a welcome addition to the literature of wildfire. His four years on a backcountry Forest Service crew provide authentic material--sometimes startlingly so--for his observations. If you want a look behind the flames to see what drives these people to come back year after blistering year then read this book.'-- (08/20/2007)'On the Fireline is a riveting account of firemen of the U.S. Forest Service tackling wildland fires, as well as a detailed chronicle of the training, preparation, and bonhomie of depot life. By exploring how joining a firecrew matches, confirms, and extends the values of the rural culture within which the recruits grew up, Desmond offers a unique perspective on the social and psychological motivations for firefighting. The richness of the data he uncovers and his arresting style of presentation make this a distinctive and evocative work.'-- (08/20/2007)'In recent years, ethnographers have tried to face up to the Bourdieuan challenge of showing how aspects of culture are rooted in daily practices and bodies. In this beautifully written work of participant observation, Matthew Desmond takes us into the world of wildland firefighters to help us better understand the dynamics of dangerous organizations and the workers who hold the line. At the same time, he moves ethnography forward: rather than following the all too common procedure of asserting the existence of knowledges that 'go

On The Fireline Living And Dying With Wildland Firefighters Fieldwork Encounters And Discoveries By Matthew
without saying' for his subjects, Desmond shows in detail how habitus actually operates in everyday life.'-- (08/20/2007)'Along with the risks and sorrow, Desmond also presents the humor and comradery of ordinary men performing extraordinary tasks. . . . A good complement to Norman Maclean's Young Men and Fire. Recommended.'-- (11/01/2007) Æber den Autor und weitere Mitwirkende **Matthew Desmond** is a doctoral student in the Department of Sociology at the University of Wisconsin-Madison. on the fireline living and dying with wildland. on the fireline living and dying with wildland. matthew desmond on the fireline living and dying with. on the fireline living and dying with wildland firefighters. on the fireline living and dying with wildland. lecture on the fireline. on the fireline living and dying with wildland. on the fireline living and dying with wildland. on the fireline author matthew desmond recalls life as a. on the fireline living and dying with wildland. on the fireline sociological forum 10 1111 j 1573 7861. on the fireline. on the fireline living and dying with wildland. on the fireline living and dying with wildland firefighters. on the fireline living and dying with wildland. on the fireline living and dying with. on the fireline on apple books. fireline article about fireline by the free dictionary. evicted study guide literature guide litcharts. on the fireline living and dying with wildland. on the fireline living and dying with wildland. on the fireline living and dying with wildland. matthew desmond department of sociology. matthew desmond. why do firefighters take such risky jobs huffpost. tibetan wisdom for living and dying pdf. is wildland firefighting dangerous wildfire today. on the fireline living and dying with wildland. on the fireline living and dying with wildland firefighters. editions of on the fireline living and dying with. review a firefighter reviews on the fireline by matthew. on the fireline living and dying with wildland. on the fireline living and dying with wildland firefighters. download on the fireline pdf search engine. on the fireline living and dying with wildland. on the fireline matthew desmond 9780226144092. on the fireline. on the fireline living and dying with wildland. on the fireline living and dying with wildland. on the fireline living and dying with wildland firefighters. on the fireline living and dying with wildland. fireline synonyms fireline antonyms freethesaurus. on the fireline living and dying with wildland. on the fireline by desmond matthew ebook. on the fireline living and dying with wildland firefighters. on the fireline living and dying with wildland firefighters. on the fireline living and dying with wildland
