

## Trading Paces From Rat Race To Hen Run By Michael Kelly Seamus O Neill

"Pressestimmen 'equally enjoyable' -- Irish Examiner 'Inspiring both admiration and jealousy, the author recounts his journey with humour and candour, and provides plenty of food for thought.' -- Sunday Business Post \* Sunday Business Post \* 'Kelly's style is conversational, thoughtful, and always lighthearted. Trading Paces provides a hopeful perspective to taking chances, and making those life altering changes that really matter. It may also give hope to all those novice gardeners, or tinkerers out there looking for a more sustainable lifestyle - you are not alone. Lastly, Trading Paces is fun read, good for the beach or with a home-brew on your back porch. Because, in the end, the book is really about slowing down and finding balance in this crazy modern life.' -- <http://www.treehugger.com/> 'An engagingly constructed warts-and-all chronicle of the motivation for the move, the ups and downs of 'downsizing' income and the period of adjustment required written with honesty and humour.' -- <http://www.emigrant.ie/> 'In an easy-going, hilarious fashion Michael Kelly forces us to stop and think.' -- Waterford News & Star 'Kelly's enthusiasm for his new life seems genuine, and he is honest about the pitfalls. He seems to have taken to the self-sufficient life, almost by accident, like a free range hen to fresh pasture.' -- Irish Independent \* Irish Independent \* 'An engaging, thought-provoking book' -- Mail on Sunday 'The book's style is relaxed but informed. Trenchant wit and humour live side-by-side - a very worthwhile read' -- Metro 'Witty, hugely entertaining . . . highly recommended' -- The Gloss Synopsis Does this ring any bells? Mortgaged to the hilt, rising at 5.30 to commute across three counties to jobs in Dublin, fed-up, bleary-eyed and only in your thirties? Michael Kelly and his wife were classic Celtic Cubs. Then they simplified, down-sized, opted out. Now they live happily in a leaky cottage in Dunmore East, their ties with the capital severed and their careers as corporate drones abandoned. They grow vegetables and rear an ever-expanding coterie of animals: laying hens, a cock named Roger and pigs called Charlotte and Wilbur. And they don't hate Mondays anymore! This is a funny and inspiring account of the ups and downs of letting go of the Tiger.
