

Detail In Contemporary Concrete Architecture By Megumi Yamashita

"Dalla quarta di copertina Featuring the work of renowned architects from around the world and providing analysis of both the technical and the aesthetic importance of details in modern concrete architecture, this book presents 49 of the most recently completed and influential concrete designs for both residential and commercial architecture. L'autore David Phillips graduated with an MA in fine art from the Royal College of Art and later studied architecture at London South Bank University. He has worked for a number of leading architecture and design companies in the UK. Currently he is a senior lecturer in design at the University of the Arts London. Megumi Yamashita is a journalist writing about architecture and design for various publishers in both the UK and Japan.".
